

WIR SUCHEN AB SOFORT:

## **OPERATIONAL CONTROLLER (M/W/D)**

IN KEMPTEN

### **RESPONSIBILITIES**

- You will proactively support the business units and on-site management by providing operational and financial analyses.
- You will help further expand operational controlling in Dachser's Air & Sea Logistics business field
- You will analyze, validate, and scrutinize monthly and customer results and track the progress of any actions agreed upon.
- You will compile vulnerability analyses and develop actions to optimize results.
- You will work closely with other Head Office divisions and drive forward projects that influence results.
- You will compile the monthly financial statement and review this document with local management.
- You will look after and further develop the existing controlling tools.

### **QUALIFICATION**

- You have a business degree (university, DAV, BA, FH) with a focus on business administration, logistics, or controlling.
- You have gained relevant experience at a logistics company.
- You possess excellent IT skills, especially in Microsoft Excel, and ideally also have experience working with SAP FICO and/or Arcplan TM1.
- You have an excellent command of written and spoken English.
- You are open to constructive criticism, have an entrepreneurial mindset, and are solution-oriented.
- You demonstrate a strong aptitude for numbers and analytical thinking, and take a thorough, precise approach to work.
- You enjoy traveling as part of your job.

### **BENEFITS**

- We attach great importance to a comprehensive onboarding program and attractive training options through our DACHSER Academy.
- After appropriate training, you will have the opportunity to work on foreign projects.
- We offer holiday and Christmas bonuses as well as a company pension scheme and capital-forming benefits.
- We enable flexible working hours through working time accounts and health management.
